Dear Jazzarae:

As the Executive Director of Teens with a Purpose, I would like to express my support for the “Soulful Techniques” Music Theory Studios music and art courses.

Your classes peak the interest of our teens by allowing them to become engaged in activities that give freedom of musical and artistic expression. The instructors teach more than just the fundamentals and know how of respecting your craft. They showcase the fun and responsibility it requires to venture in each particular course. Our teens enjoyed learning from working musicians and artists who truly understand what it takes to persevere in this industry.

Our community is in desperate need for programs that support education, culture, and community pride. I am extremely grateful for the opportunity that Music Theory Studios is providing with this initiative, and I strongly recommend and support the ‘Soulful Techniques’ music and arts program, and look forward to a continued partnership.

Sincerely Yours,

Deirdre A. Love
Founder/Executive Director
